

REMARKS

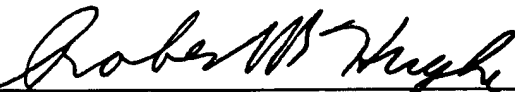

In the last office action, there was a requirement that the applicant elect a single disclosed species for further prosecution. The applicant provisional elects the species shown in claim 5, one embodiment of the species of claim 5 being shown partially in Fig. 10 which is a portion of full store directory.

The restriction requirement is hereby traversed with respect to claims 5-12. It is believed that these are sufficiently closely related to one another so that a search in one area would overlap in one and another, and the time and effort of both the examiner and the applicant's attorney, the undersigned, could be facilitated by having these searched together.

If there is any matter which could be expedited by consultation with the applicant's attorney, such would be welcome. The applicant's undersigned attorney can normally be reached at the telephone number set forth below.

Signed at Bellingham, County of Whatcom, State of Washington this November 02, 2004.

Respectfully submitted,
PAUL S. ENFIELD,

By
